Aviation Refuelling Guide

Australia
April 2006

Mobil Aviation

www.mobil.com.au

Australia

MAP KEY

- Avgas and Jet
- Avgas only
- Jet only

Planning a flight

While Mobil has made every effort to ensure that, at the time of printing, the information contained in this guide is correct, circumstances over which we have no control can affect the availability of fuel and/or service. We strongly recommend that pilots check with agents listed at locations where fuel will be required before leaving on their flights.

Hours of service

For other than main airports, dependent on locality and variations to suit local requirements, normal service operates during the hours indicated against each airport. However, hours of operation are subject to change without notice and are listed herein as a guide only. Unless otherwise stated all hours of service are 7 days. Some airports are not attended continually during the hours nominated and advance notice may be required to obtain service.

Call out fees

After hours service may be available on request, but at some locations an after hours or call out fee may apply at the discretion of the agent.
